Jessy Chappell

Product Designer · UX / UI · Research-led

Brisbane, Australia · 0430 002 237 · jessyuxer@gmail.com · jessyux.com · linkedin.com/in/jessyux

Brisbane-based product designer blending research and empathy to create inclusive experiences. I build AI-assisted workflows in Claude that my product team uses, and stay invested in what happens after launch: adoption, change management and measurement.

SELECTED IMPACT

- **19% reduction** in patient-initiated churn and an estimated **$13.7M/year** in revenue protected by redesigning the uMeds reorder and shipping experience (2025).
- **Usability up on every measured task** in the Circuit operations portal redesign (find-a-record 2.6 to 4.6 of 5), with ~150 accessibility issues surfaced against WCAG 2.2.
- **~3 FTE (~6,000 hours/year)** of team capacity modelled as unlocked through the Circuit redesign.
- **AI workflows adopted by Montu's product team**: built and co-built Claude skills for the 5-phase product process and on-brand 'What's New' release decks.
- **'Goal Savings' shipped and live** in the Westpac Youth banking app, later recognised by WeMoney and Canstar.

RELATED EXPERIENCE

Montu (uMeds / Alternaleaf), Brisbane
Oct 2024 - Current

Product Designer

- Lead end-to-end product design for the uMeds ordering and fulfilment experience, from patient-facing ordering flows to internal tools used by pharmacy partners and support staff (Fulfilment & Supply Chain / Ordering Experience squad).
- Redesigned the medication reorder and shipping experience with three delivery options (same-day, click & collect, scheduled), cutting **patient-initiated churn 19%** and protecting an estimated **$13.7M in annual revenue**.
- Redesigned Circuit, the internal operations portal, **lifting usability on every measured task** and surfacing ~150 accessibility issues against WCAG 2.2; modelled ~3 FTE (~6,000 hours/year) of capacity unlocked.
- Built and co-built Claude skills **adopted by Montu's product team**: a phase-aware product-process assistant that guides PMs from triage to evaluation (JPD, PRD and evaluation artefacts), and a 'What's New' skill that generates on-brand Figma Slides release decks for Alternaleaf and uMeds.
- Introduced research rigour and structured process (heuristic reviews, task-based usability testing, VOC and data synthesis) to a team that previously shipped without it.
- Facilitate cross-functional workshops with product managers, engineers and pharmacy partners; own change management and post-launch measurement, within TGA-regulated constraints.
- Designed AI-assisted daily workflows in Claude, including a searchable meeting-notes knowledge base for terms, owners and decisions, and an automated morning brief, to hold context across squads and stakeholders.

momentLeader
Aug 2023 - Jan 2026

UX/UI Design Lead

- Led UX/UI for an AI professional development coaching app built around moments of reflection and backed by psychologists and therapeutic practice, helping people navigate difficult situations at work.
- Partnered with the Head of Product and a Product Manager to scope the MVP: ran UX audits and ideation workshops, then produced low, mid and high-fidelity wireframes.
- Evaluated MVP success through user surveys and engagement monitoring, with **user engagement up 180%**.
- Upskilled staff in UX and UI principles and trained mentees to become self-sufficient product designers.

iDU Identification, Brisbane
May 2023 - Oct 2024

Product Designer

- Created user-friendly designs (Web/iOS/Android/SaaS) with WCAG 2.2 in mind while maximising conversion rates.
- Collaborated with Product Managers, engineers and the GTM team to shepherd products from concept to launch, shaping direction, priorities and scope during planning.

Claude: custom skills for product process, release comms and knowledge management · Figma AI · prompt design · workflow automation

METHODS

MECLABS · Baymard · Gestalt · Double Diamond · WCAG 2.2

VALUES

Honesty · Integrity · Open communication · User-centric · Passion · Hard work

AWARDS

Miro, Balanced Scorecard Winner
For achieving the highest metrics.

ADPList, Rising Star
One of the highest-contributing mentors of the month.

MYOB, The MYOB Way Award
Employee of the month for portraying the MYOB values.

LANGUAGES

English (fluent) · Cantonese (conversational)

HOBBIES

Rock climbing · Gardening · Cat fostering · Audiobooks · Gamification

- Crafted and prototyped solutions that met customer requirements while driving positive business outcomes.
- Worked in cross-functional scrum teams, managing trade-offs to deliver rapid, high-quality releases; led and facilitated alignment workshops.

Conversion Kings, Brisbane *Mar 2023 - May 2023*
UX/UI Designer

- Designed intuitive, on-brand interfaces for client conversion goals, informed by user research, usability testing and data analysis.
- Collaborated with developers, project managers, data analysts and CRO strategists; produced prototypes, wireframes and hi-fi mockups for clients and stakeholders.

Miro, Sydney *Feb 2022 - Mar 2023*
Enterprise Account Representative

- Lead product designer in a Miro hackathon, incorporating game mechanics to enhance user engagement.
- Gathered insights from existing users, presented findings to stakeholders, and built and iterated mid and hi-fi prototypes.
- Followed Miro's design system and WCAG guidelines; documented iterations and collaborated async with the EMEA delivery team.

Raise The Fire, Remote *Aug 2021 - Feb 2023*
Fullstack UX Designer

- UX/UI designer and researcher for a crypto start-up revolutionising how influencers and fans interact through exclusive content and interactive events.
- Conducted user research, collaborated with cross-functional teams, created wireframes and prototypes, and iterated on user feedback.

Zapid Hire, Remote *Feb 2022 - Mar 2023*
Fullstack UX Designer

- User, market and competitive research; ideation, strategy and client presentations.
- New business acquisition, stakeholder engagement, marketing material and sales deck design.

MetaLearn, Remote (Contract) *Mar 2021 - Apr 2022*
Freelance UX Designer

Westpac, Remote (Contract) *Feb 2021 - Mar 2021*
Freelance UX Designer

- Part of the team redesigning the Westpac Youth app; liaised with clients and led persona and ideation workshops.
- Created user artefacts (personas, journey map, empathy map, storyboard, affinity map) and iterated prototypes to the Westpac design system.
- **Achievement:** 'Goal Savings' shipped and live in the Westpac Youth app.

OTHER EXPERIENCE

MYOB, Sydney *Aug 2016 - Dec 2020*
NSW Field Partner Manager

- Developed and expanded client relationships across the Practice Solutions business, from entry level to C-level at tier 2 accounting firms.
- Translated complex concepts for technical and non-technical audiences; ran tailored software demonstrations and the NSW/ACT client engagement program.

RSP Consulting, Sydney *Feb 2016 - Aug 2016*
Sales Recruitment Team Lead

Beaumont Consulting, Sydney *Jan 2016 - Feb 2016*
Recruitment Consultant Internship

VOLUNTEER

adplist.org, Remote *Feb 2023 - Present*
Mentor & Mentee

- Mentor ambitious designers to set goals, navigate challenges and grow their careers through regular sessions and workshops.
- Learn from industry leaders as a mentee, building skills, network and confidence in UX.
